TS200 TEST STRIPS

# INTRODUCING, UNIVERSAL 3-WAY TEST STRIPS

The first and only test strip designed for all heavy-duty coolant types. A quick and effective way to test your cooling system in both conventional and extended life coolant.

- For use in all heavy-duty coolant types, including extended life coolant
- Effectively tests freeze point of conventional and extended life coolants
- Tests for contamination and chemical protection in extended life coolant
- Accurately tests SCA (nitrite) concentrations in conventional coolants
- Quick and accurate results in minutes
